To whom it may concern,

Carpetland USA supplied and installed all of the resilient and carpet flooring for Mercyhealth's Javon Bea Hospital and Physician Clinic as a subcontract trade partner to Mortenson Construction. This is the flagship hospital for the Mercyhealth System and is just under 600,000 SF and cost over \$330M in construction value. The flooring scope consisted of accents with butterflies, dragonflies, and sparrows cut from sheet vinyl and rubber flooring, amongst various other types of flooring. The project was a very fast paced and complex construction project requiring multi-crew sequencing and coordination. Carpetland USA performed their scope in a highly skilled, diligent and efficient manner with exceptional organization and planning by both field and office personnel. This project was the first time Mortenson worked with Carpetland USA and they exceeded expectations in all regards.

Please contact me if I can be of any further assistance.

Sincerely,

A handwritten signature in blue ink that reads "Joe Krueger".

Joe Krueger
