

To whom it may concern;

I give the highest recommendations to Kevin and his team at Carpetland USA. They have done numerous successful flooring projects for RJC for many years. They are quick, reliable, and have a knack at expediting materials whenever a change order or added items are adjusted by the owner. I have found Kevin is one of the top professional in the flooring industry in the Chicagoland Area. He is a "hands-on" owner, available when we need him and I have tremendous respect for him personally.

The staff is knowledgeable, installation is top notch quality, and they always meet or exceed our construction schedule expectations. Kevin has the manpower and connections with the manufacturers to produce! Ringland Johnson recently completed Two (2) Thirteen-13 story Resident Towers at NIU. Carpetland USA was the flooring contractor that helped us make those projects a huge success! Please feel free to call if I can be of any assistance.

Sincerely yours,
RINGLAND-JOHNSON, INC.
