

To: Whom it may concern

Rockford Carpetland USA has done an outstanding job on two of our recent projects:

The 'Patrick G. and Shirley W. Ryan Center for the Musical Arts' was a fast track, very complex project. It is a state of the art facility with hundreds of training rooms that have floating substrates on rubber pods. On these pods were 4x8 sheets of plywood that Carpetland USA installed welded Forbo. They worked hand in hand with Power making sure it was a perfect installation as we struggled to find another example of this type of installation. The other aspects of flooring receive a five star as well. They were great to work with and performed with excellent manpower and craftsmanship.

They also receive a five star on the flooring work and manpower for the Hampton Inn and Homewood Suites Tower, Downtown Chicago. They are easy to work with and respond to different levels of manpower required daily. Paper flow and communication along with craftsmanship and management were all excellent.

A handwritten signature in black ink that reads "Luke Schroeder". The signature is fluid and cursive, with a large initial "L" and "S".

Sincerely,

Luke Schroeder.
